Rules of conduct for health protection

Dear students,

we are all responsible for our health protection, but we must also respect the protection of others.

School operations can only work during Corona time if they adhere to the following rules of conduct:

• Only come to school if you are healthy.
• Wear mouth and nose protection in public transport, in the schoolyards, on the stairs, in the hallways and in the toilets.
• Observe the specified walking routes and the agreed seating order.
• Keep a distance of at least 1.5m from other people.
• Go to your classroom as soon as you arrive.
• Avoid touching door handles and switches with your hands if possible.
• Wash your hands thoroughly upon arrival in the classroom.
• Blow your nose at the sink, dispose of the handkerchief directly and then wash your hands.
• Observe the access regulations for the toilet facilities.
• Send inquiries to the secretariat by email if possible.
• Leave school quickly after the end of class.

Let us work together to ensure that the school is and remains the safest place to learn!

Stay healthy! Your school management
