Dear students, dear trainers, dear parents,

In the hope that you are all well, we welcome the first classes from April 27th, 2020 to the gradual resumption of classroom instruction at BBS 3 Mainz.

The school management, the teachers and the caretaker have taken many measures in the past few days to ensure a safe start to school. We ask the pupils to use their behavior to ensure that the school is and remains a safe place.

When the lessons resume, the teachers will discuss the protection against infection and the rules for staying on the school premises and in the school building.

We will inform you in advance about individual regulations that apply beyond the generally known contact, distance and hygiene regulations or are important when you arrive at school:

• Only come to school if you feel healthy and have no fever (i.e. 38 ° C or more).

• Pupils who fear that they themselves or someone in the same household have an increased risk of severe CVI 19 disease should contact their class or main course leader before attending school.

• Please allow enough time for your arrival, especially if you use public transport. The buses are currently running on a restricted schedule.
• Due to the “mask requirement” in public transport and in parts of the school building, remember to bring your own mask that covers your mouth and nose. Self-made masks or a cloth or scarf are permitted. The state government has made its original mask available. However, the schools cannot permanently equip all students with masks.

• Also pay attention to the minimum distance rules when you arrive. You will be happy to see your classmates again. However, avoid shaking hands, hugs or other forms of body contact so that you do not endanger yourself or others.

• When you enter the building, many things will be different. To maintain the spacing rules, we have made numerous changes in the school building. To protect everyone in the school, it is important that you follow the prescribed routes and markings and follow the instructions of the supervisors, even if you can no longer use them to reach familiar places in the school.

A summary of the other internal rules of conduct that the teachers will explain to you on your first day of school can already be found in the document “Code of Conduct for Visiting Schools”.

We wish you a good start to the new phase of teaching at BBS 3 Mainz - and stay healthy!

The school management and the staff of BBS 3 Mainz
